EDUCATION

Singapore University of Technology and Design (SUTD) — **Singapore**
Bachelor of Engineering in Engineering Product Development — **Sep 24 - Present**
- GPA 3.460 , SUTD Hokkien Foundation Scholarship Holder

Temasek Polytechnic — **Singapore**
Diploma in Biomedical Engineering — **Apr 20 - Apr 24**
- Engineering Scholarship Holder 2022 - Awarded to only 30 students of cohort

TECHNICAL TRAINING AND SKILLS

Technical Skills
- CAD & Design: Creo, Fusion 360
- Electronic & Wiring: Autodesk Eagle, circuit wiring
- Prototyping: 3D printing, rapid prototyping
- Programming: Python, C, Arduino

Technical Training — **Singapore**
World Skills Singapore Mechatronics Training – Temasek Polytechnic — **Apr 22 - Jul 22**
- Programmed pneumatic automation systems using Sequential Function Chart (SFC) logic.
- Assembled, wired, and tested mechatronic modules involving pneumatic actuators, sensors and control components.

WORK EXPERIENCE

National Healthcare Group (NGH) — **Singapore**
Hougang Polyclinic, Assistant Pharmacist — **Oct 25 - Dec 25**
- Worked with automated medication dispensing systems and medical packing operations.

M1 Limited — **Singapore**
Serangoon, Digital ambassador — **Apr 24 - Jul 24**
- Diagnosed 70 customers issues and recommended suitable digital packages solution to improve customer satisfaction.

National Institute of Technology (KOSEN), Kumamoto College — **Japan**
Laser Range Finder Data Visualization – Data Analyst and Research Intern — **Apr 23 - Aug 23**
- Developed a laser range finder visualization system to analyse evacuation pathways and optimize emergency exit clearance.
- Processed sensor data to support safe routing and spatial analysis during emergency scenarios.

ACADEMIC PROJECTS

Singapore University of Technology and Design (SUTD) — **Singapore**
Bloom Bloom — **Jan 26 - May 26**
- Designed and prototyped an assistive rehabilitation device aimed to improve hand strength among elderly users through an interactive plant watering activity.
- Engineered interchangeable weighted components and game-based interaction system to encourage engaging and consistent rehabilitation exercise.
- Awarded the Breakthrough Innovation Award at ENGAGE-D 3D Design Project Expo for excellence in assistive design and user centered innovation.

Temasek Polytechnic — **Singapore**
Assistive Mouse Design for Amputees — **Oct 23 - Dec 23**
- Designed an ergonomic assistive computer mouse for amputees using human-centered design principles and usability testing.

CO-CURRICULAR ACTIVITIES

Global Ambassador Club — **Singapore**
Heads of Program — **Apr 23 - Apr 24**
- Coordinated events with up to 50 participants, managing logistics, resources, and timelines for community initiatives.

Community Service Club — **Singapore**
Mentor — **Apr 22 - Jan 23**
- Mentored Primary 1 student in mathematics through weekly tutoring sessions and customize learning materials.
